

REM Double Coated Foam Tapes

Arlon Innovations REM Double Coated Foam Tapes are available in four different types which include: REM100, REM150, REMHP, and REM200. The REM Foam Tapes are constructed of polyolefin foam coated on both sides with a pressure-sensitive adhesive. The unwind side is offered in both removable and permanent adhesives which are designed to bond the foam to the desired substrate. The other side is coated with a light tack, light bond, removable adhesive designed to temporarily anchor to various surfaces, including countertops and walls.
