

Glazing Tapes for the Fenestration Industry

Arlon Innovations manufactures AWT3, DGT, HiPerGlaze™ V1 and HiPerGlaze™ F1 Glazing Tapes for the fenestration industry. These products are offered with a variety of adhesive systems that maximize adhesion to vinyl, aluminum, wood, and other materials used for manufacturing of windows and doors. The exposed side adhesive is designed for adhesion to the substrate material, and the liner side is designed for adhesion to glass.

ABOUT ARLON INNOVATIONS

We've been developing and enhancing adhesive platforms to meet the needs of each individual customer for over 40 years. To us, success means long-lasting, trusted partnerships with our customers.

We're the people, people. We work with customers every step of the way, often acting as an extension of their design team, enabling them to solve even the most challenging problems. We understand the bottom-line matters so we offer our customers the level of performance they need—nothing more, nothing less.

Like those who defended the Alamo, we don't give up until our customers succeed.
